## SPECIFICATIONS

Model No	WP-70
Working voltage	AC100-240V
Network	WIFI-2.4GHz
Average power consumption	≤3W
Warm-up time	About 3 minutes
Detection gas	Gas that can be burned (CH <sub>4</sub> )
Alarm concentration	6%LEL
Error	±3% LEL
Alarm sound pressure	≥70dB (1 meter)
Working temperature	-10°C~ +55°C (indoor use)
Working humidity	≤95% RH (no condensation)
Product size	L90mm x W90mm x H59mm (plug ONT included)

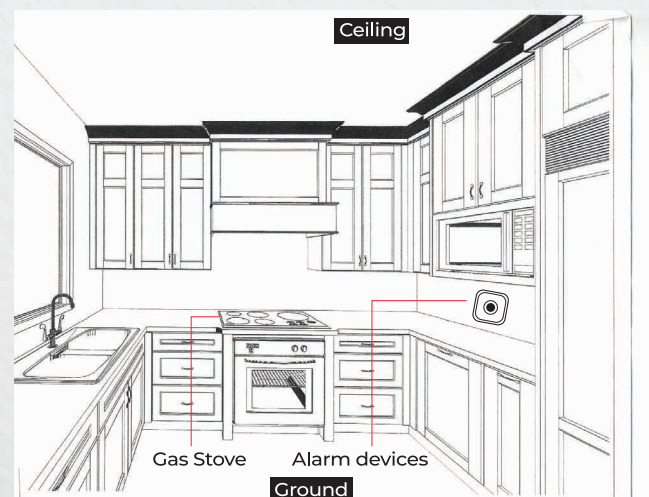

## PRODUCT ADVANTAGES

1. High reliability semiconductor wifi gas alarm.
2. Using powerful microprocessor control.
3. Mobile app remote connection, support for connecting Tuya app.
4. Connect to Tuya app for remote notification.
5. Real-time reporting of detected gas concentration.
6. Equipment work light description. (Red LED, Green LED, Yellow LED).
7. Voice alarm prompt.
8. Over 70db of loud volume.
9. Made by SMT process, strong stability.
10. Plug and play, easy to install, easy to network.

Detection of multiple harmful gases  
Protecting family members

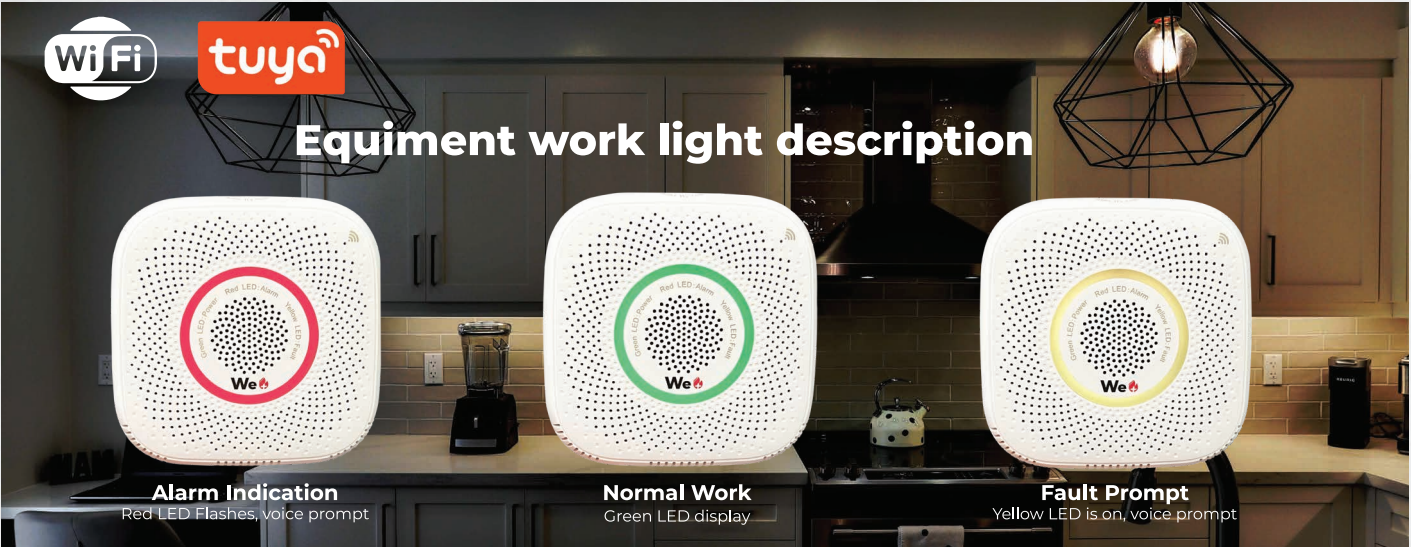

## Installation instruction and scope

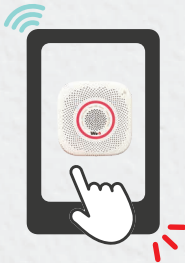

# SMART COMBUSTIBLE GAS ALARM (WP70)

“Smart Plus”

Over 70dB of loud volume  
Remind family members to be safe

- 1 Alarm and simultaneous broadcasting  
Push alarm information through APP background
- 2 Alarm and broadcast reminders  
And stay away from dangerous areas
- 3 One-touch phone self-test, convenient and quick  
Farewell to vintage gas detectors
